Three Door Designs

(5.)

Our sliding wardrobe doors are available in a wide range of styles, colours and finishes that can be created in hundreds of configurations. You can work together with one of our designers to create something totally unique to you and your room while also creating your dream storage space, with just the right interior storage solutions, tailored to your individual needs.

A regular three Door format is normally a mirror in the center and a Panelled door to the left and right done in any material and colour of your choice, in these two examples one is a simple straight lined cream robe , the other would be a more distinctive look using Walnut Decor doors with Dark red high gloss Glass

(5.)
 Door Design - Full Panel 100%.
 Door Panels - Soft Cream and Mirror
 Door Profile - Cream.

(6.)
 Door Design - Walnut Decor Four Cubed.

(31.)
Door Design - Handless push to open
Door Panels - Fuchia Glass

(32.)
Door Design - Handless Finger Groove
Door Panels - White.

Walk in Wardrobes

When Designing Walk in Wardrobes , We Usually begin in the corner using or curved hanging bar system and work left or right from here. If shared use, we recommend splitting the robe in two, this may not necessarily mean 50/50 ,

The percentage proportions always a tricky one !We find it best to design with each persons own space and specific requirements in mind from the beginning.

SLIDE GLIDE

Sliding Robes . Walk in Robes . Room dividers

(33.) Panels - Light Oak

(34.) Panels - Medium tiepolo

Everything in its Place , Organised and Tidy.

Walk in Wardrobes

Our Spacious and practical Walk-in Wardrobes are designed to maximise every last millimetre of space and can include a wide range of clever storage solutions to suit your every need. A place for everything and everything in its place. Our designers can fit a walk-in wardrobe into almost any room, regardless of its shape or size and can be the perfect storage solution that you may not have even considered. Accessories of Trouser , shoe and tie Racks are always a good addition, We also custom make jewellery drawers in a wide range of colours and styles

3 STEPS To Designing your ULTIMATE SLIDING WARDROBE

What we find helps to get exactly what you require and to make the design process easier is to Break down the three main components of your wardrobe into three sections , Interior , External and Doors and deal with each part individually.

Step 1. Select Wardrobe Interiors (choose the design e.g. 2,3 or 4 door and then choose the colour add drawers , baskets Accessories etc.

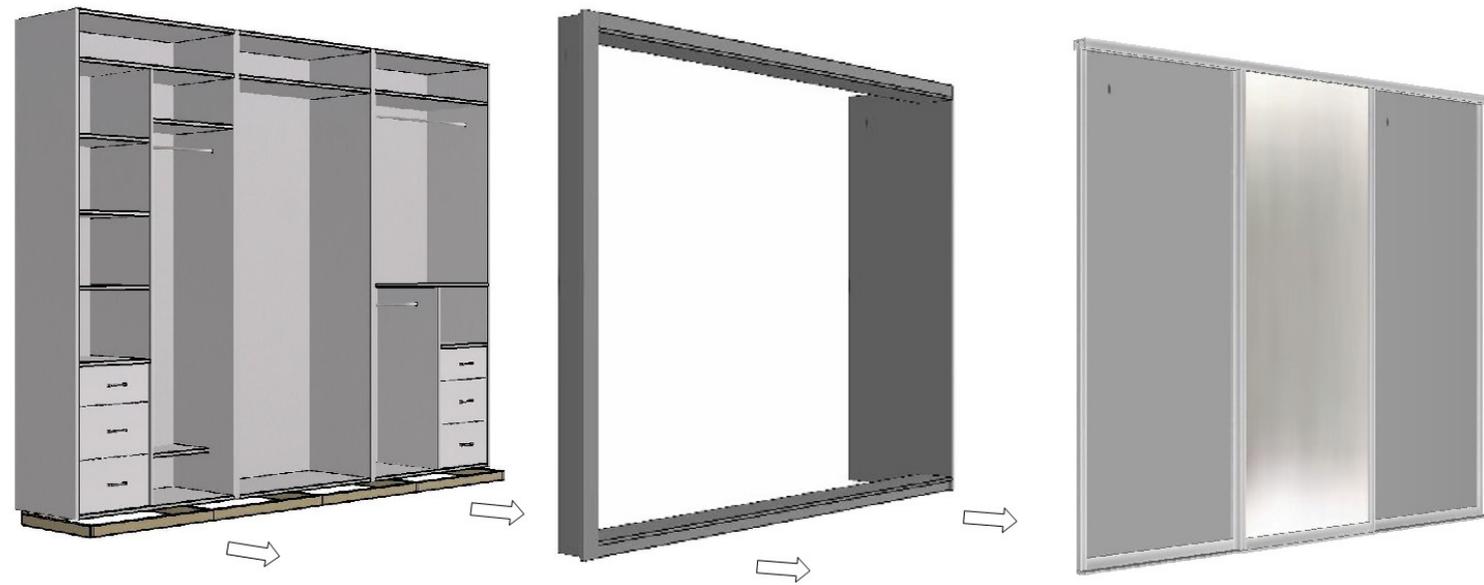

Step 2. Select Wardrobe External , the position of your wardrobe in your room dictates this selection e.g. Wall to Wall , Wall to End Panel , End Panel to Wall or End panel to End Panel .

3. Select Wardrobe doors , Choose Full Panel , Split Panel or Moulded Panel Doors , Then choose the Profile and Panel Colours .

1. Interiors

2. External

3. Doors

Sliding Robes . Walk in Robes . Room dividers

Three door Internals

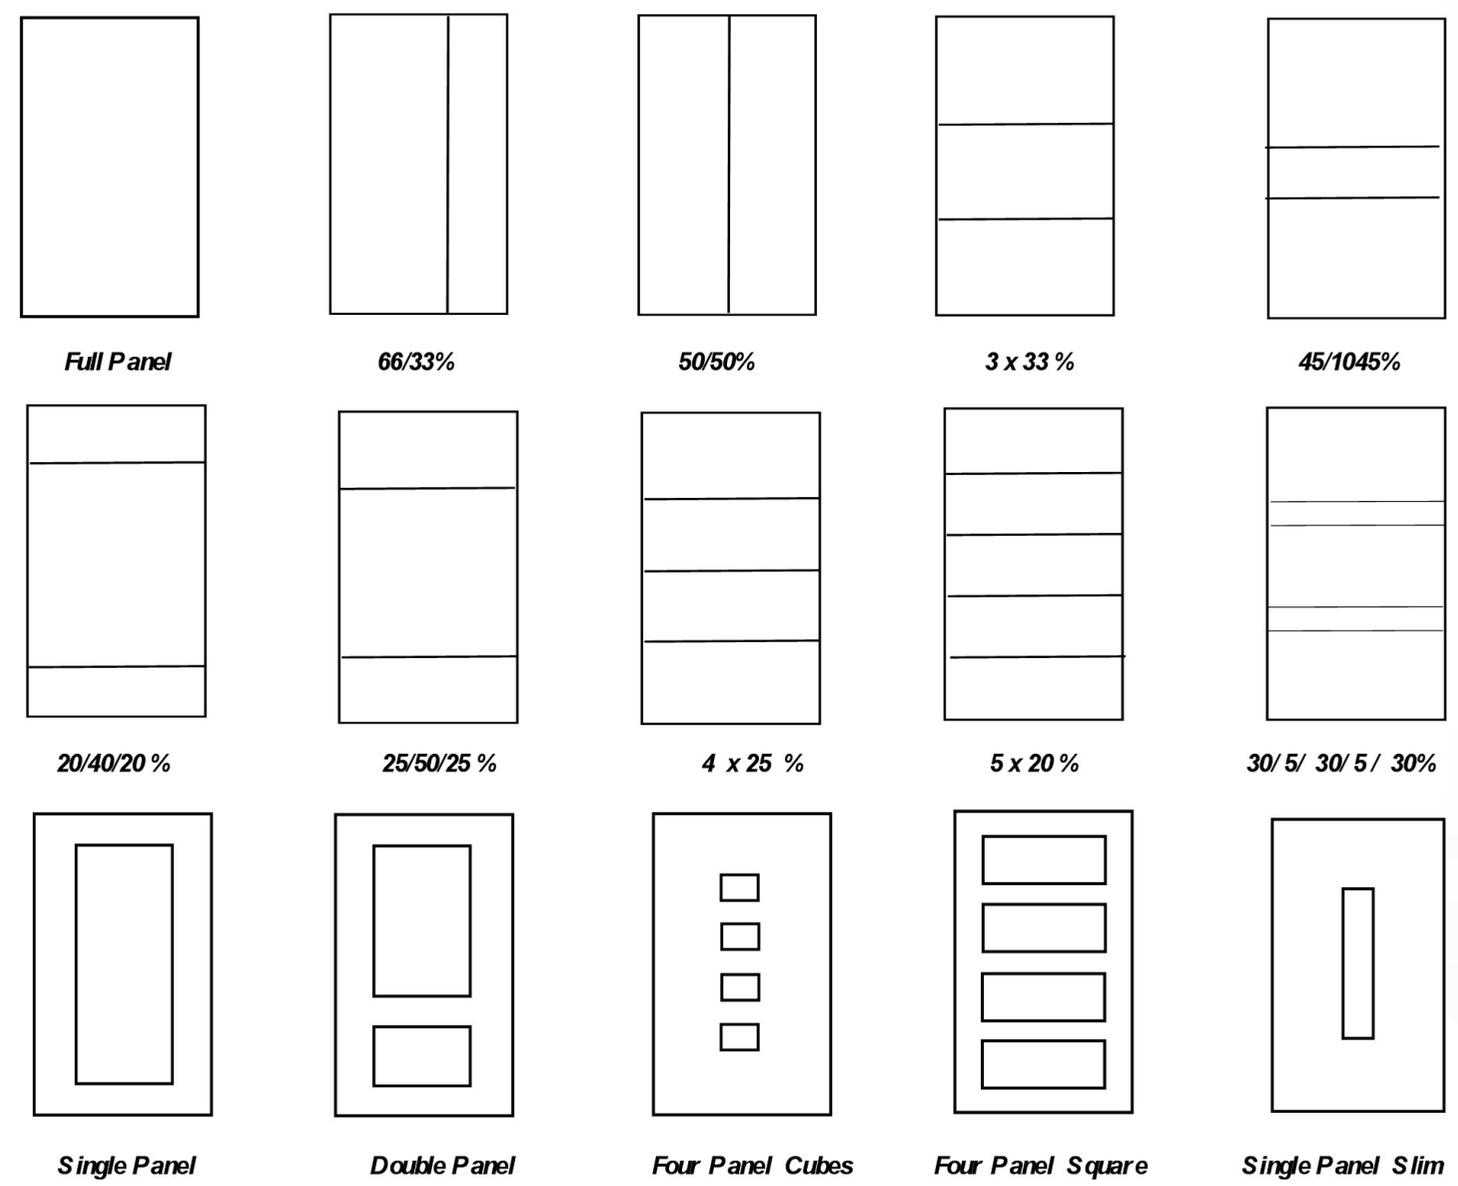

Two door Internals

Four door Internals

Selecting The Door Style

(a) 100% Full Flat panel doors

(b) Split panel doors

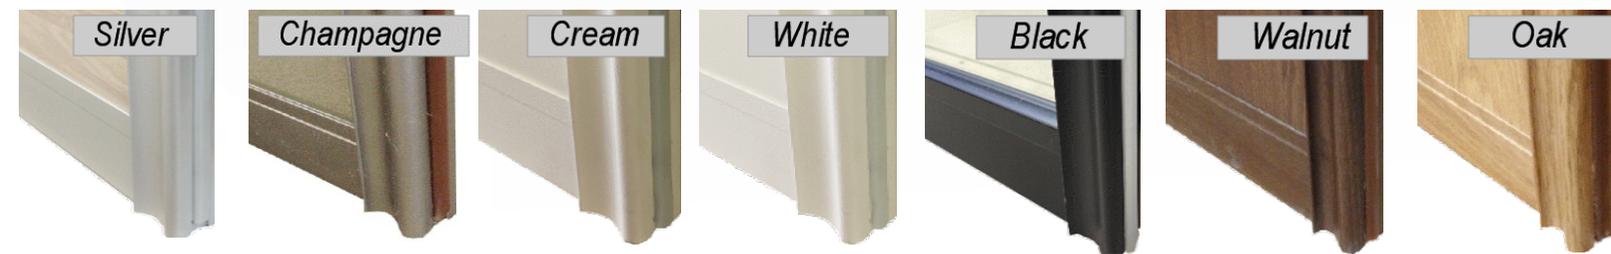

(c) Moulded panel doors

Door Profiles

Selecting the door profile is an important decision in the overall look and design, the choice is to either contrast the profile with the inset panels of your doors or to match and blend, the choice is yours.

Our profiles are constructed from 2mm Extruded aluminium and to 18mm panels which increasing the overall rigidity of the doors. The vertical handle profiles are rebated for rubber cushion reducing slamming on closing and optional hydraulic soft closing also available

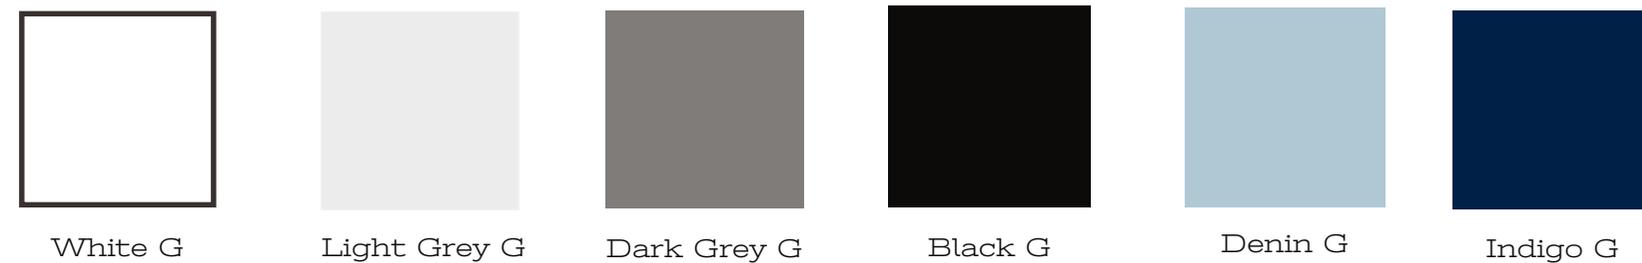

Please note ! if you are looking for a specific colour that you do not see here, let us know for we can try and source.

MFC Panels For Interior , Exterior and Door Panels

MDF Arcrylic High gloss for Door Panels

MDF super Matt for Door Panels

Mirrors and Glass for Door Panels

MFC Abstract

The Service

Designed for you

Creating your perfect room is not just our job, it's our passion. We always encourage on any potential customer to visit any of our showrooms firstly where it is here you can really see and more importantly feel how smooth and robust our sliding doors are. We believe it is this what separates our product from others, The finer details of your design are discussed in the showroom where we will show you a 3D Computer image of your space. One of our designers will come to your home to chat to you, find out about your ideas, work out what storage you need and create the perfect plan just for you. Our aim is to create a storage solution just for you to your precise requirements.

Made for you

Before we manufacture your project, every little last detail is double checked in your home survey, the angle of the slope of that ceiling, the depth of that alcove, the height of that skirting board. Any issues regarding electrical points, we will advise. Only then it is made to order at our factory using our highly advanced computerised millimeter perfect machinery.

Installed for you

At Slide Glide, our skilled joiners and craftsmen are dedicated to doing the best job possible for you. When they come to fit your project, they'll do it with care, precision and attention to detail, Leaving you with a perfect job and a dream finish.

Supply Only, Optional Service

For those who are not local to our showrooms and who may be Confident and able to install themselves we can also offer any of our products on a Self install basis, just go to our website and select what it is you are interested in, Maybe you want to cover an existing robe with our Sliding doors , A Complete Wardrobe or room dividers, what ever it may be, will gladly help.

Our Gurantee

At Slide Glide, we're so confident that your new, space saving storage solution is built to last, we are Extremely confident in its durability and functionality we provide a 10 year product guarantee against manufacturing defects, at the end of the day, we don't just want you to be happy now – but for many years to come.

What our clients have said

With over twenty years of past customers and thousands of projects completed, it is in our best interests we get it right every time . Please feel free to go to google or Facebook and see genuine customer feedback.
